

CARBIDE'S PRESIDENT DR. J. G. DAVIDSON, LEFT, IS shown with Oak Ridge and former Oak Ridge employees of the Company at the Service Award Banquet at South Charleston, W. Va., last Friday night. From Dr. Davidson's left are Arthur Anderson, K-25; Ray J. Barron, Y-12; Marshall G. Means, formerly of K-25 and now at the South Charleston plant; and Clark E. Center, general manager for Carbide's AEC operations.

## Company Honors 79 Employees With 25 Years Of Service; Y-12's Ray Barron Among Group

Three Oak Ridge Carbide employees were among the 79 Company personnel honored last Friday night at the Service Award Banquet at South Charleston, W. Va., for completing 25 years of service. The three Oak Ridgers honored were Clark E. Center, General Manager of Carbide's operations for the Atomic Energy Commission; Ray J. Barron, Office Manager of the Manufacturing Offices Division at Y-12; and Arthur Anderson, of the Analyst Process Laboratory at K-25. The annual Service Award Banquet is the big event of the year in Carbide activities when the Company pays tribute to its employees who have given a quarter of a century of faithful service to the organization.

### Watch, Certificate Presented

Each of the 25-year veterans of service with the Company received a handsome wrist watch and a certificate of recognition symbolizing the pride of the Company in their contribution to the program of Carbide. The presentations were made by Dr. J. G. Davidson, President of the Company. A response on behalf of all the 25-year employees was made by E. J. Mondron, Jr., an employee in the Carbide home office at South Charleston, whose service dates back to January 10, 1927.

An elaborate and impressive program marked the Service Award Banquet. Each of the honored guests received an individual program with a cover designed as a television set. On the screen is a picture of the honored guest and on the first inside page is a purported television script of an interview of the employee on his story of work for the Company. Then are printed pictures of all of the 79 25-year employees, followed by a resume of the news of 1927 in brief with pictures.

### Ridger's Service Given

General Manager Clark E. Center was first employed by Linde Air Products on July 10, 1927, transferring to the Carbide Plant at South Charleston 10 days later. Y-12's Ray Barron preceded him by four months, going to work for Carbide on April 11, 1927. Arthur Anderson began his Company work with American Carbide, later the Electro Metallurgical Company, on July 6, 1926, transferring to Carbide the next year.

In addition to receiving the watches and certificates for their 25 years of service, the visiting veterans of Carbide also were royally entertained at the banquet and during their entire stay in South Charleston.

## Art Center Will Repeat Exhibition On Thursday

Y-12ers who missed the opening exhibition of the newly formed Oak Ridge Art Center will have another opportunity to look over the excellent assortment of paintings from 4 p. m. to 10 p. m. tomorrow, Thursday, October 23, at the high school lobby. Several works of Y-12ers and members of their families will be on display in the exhibition. Y-12ers interested in joining the group are asked to communicate with Alex Zucker, Bldg. 9204-3, telephone 7417.

## Death Ends 33-Year Career Of Fred H. Haggerson With UCC; Board Chairman's Liberal Policies Aided Corporation Growth

Funeral services were held last Thursday at the Congregational Church at Manhasset, N. Y., for Fred H. Haggerson, 68, Chairman of the Board of Union Carbide and Carbon Corporation, who died Tuesday morning, October 14. Private interment at Nassau Knolls, Port Washington, N. Y., followed the funeral.

Mr. Haggerson died at the Roosevelt Hospital, New York City, following a short illness.

Mr. Haggerson, who had been with Union Carbide for more than 33 years, became Chairman of the Board in 1951. He had been made Vice-President in 1938, a Director in 1941, and President and a member of the Executive Committee in 1944. He promoted a liberal policy of research and expansion that has been largely responsible for the growth of the Corporation, of which Carbide and Carbon Chemicals Company is a Division.

He was born in 1884 in Spalding, Mich. After attending high school in Menominee, Mich., he went to the Holbrook School, Briarcliff, N. Y. He attended Hamilton College, Clinton, N. Y., and completed his education at the law school of the University of Michigan, from which he was graduated with a Bachelor of Laws Degree in 1907.

Fred H. Haggerson

For the next 10 years Mr. Haggerson practiced law in Menominee. Within two years he became District Attorney for Menominee County. In 1917, during his fourth consecutive term in that office, he was appointed to the Bureau of Investigation, Department of Justice, in Cleveland. Shortly afterward he was trans-

ferred to its New York office where later he acted as Division Superintendent, filling that post during World War I.

In February, 1919, he became associated with the Law Department of Union Carbide. His endeavors became more and more of an executive nature and he became successively President and Director of many of the Divisions of the Corporation.

Largely because of his outstanding leadership in the field of metals, Mr. Haggerson was awarded the 1949 Medal for the Advancement of Research presented by the American Society for Metals. The citation stated that Mr. Haggerson had been an outstanding example of the modern executive in a manufacturing enterprise employing industrial research as an effective aid in the achievement of commendable business objectives.

Mr. Haggerson, whose home was in Plandome, N. Y., is survived by a son, Frederick S. Haggerson, of Manhasset, Long Island; a daughter, Jane A. Haggerson, of Plandome; two grandchildren, F. Whitman and Susan Isabel Haggerson; and two sisters, Mrs. Elizabeth Knapp, of Lynden, Wash., and Mrs. Harriet Sedenquist, of Florence, Ala.

## Some Departments Give Quota On Opening Day

Hoping to go "over the top" in the first week of the campaign, Y-12 workers for the Oak Ridge Community Chest launched their drive bright and early Monday morning to raise the plant's quota of funds for operation of the Chest's Red Feather agencies during the coming year. So well was the foundation laid for the campaign that by press time of The Bulletin some Y-12 departments already had reported to Plant Campaign Committee Chairman George W. Flack that their quotas had been subscribed 100 per cent.

### 15 Agencies Receive Aid

The Community Chest is seeking to raise \$55,889 this year to provide funds to keep 15 Red Feather organizations operating efficiently for the benefit of the entire community. The amount sought by the Chest this year is some \$7,000 less than the 1951 goal, the reduction being made possible by close scanning of the agency budgets by Chest directors.

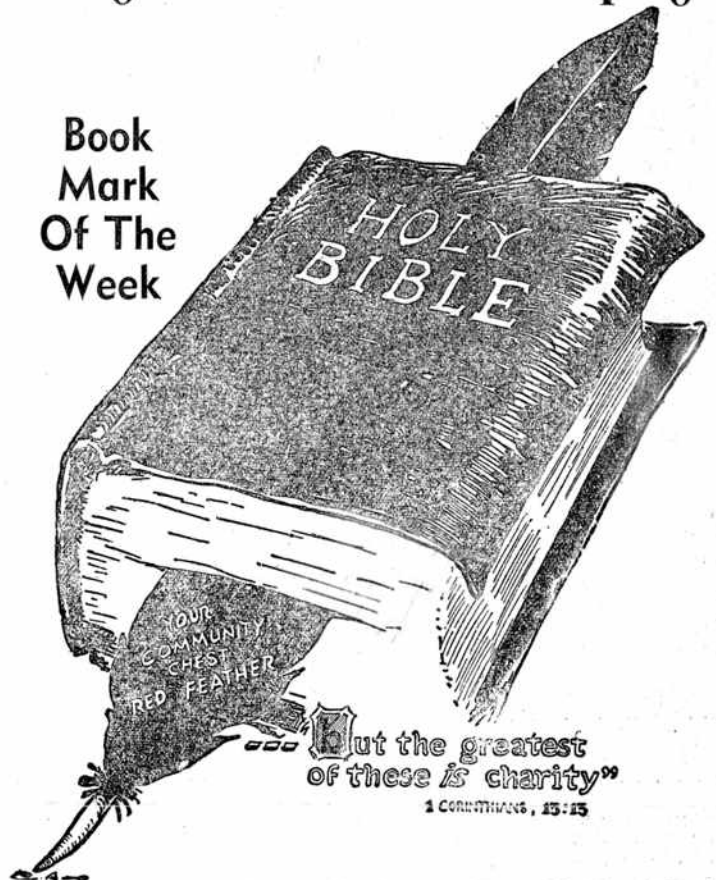

Contributions by Y-12ers to the Chest appeal are being made by both cash gifts and donations through payroll deductions. The deductions can be made in two installments for weekly paid employees with the money being taken out of pay checks distributed on November 28 and December 5. Deductions from monthly pay checks will be made on the November check distributed November 26.

### Many Classes Benefitted

Benefits from the Chest operations cover every segment of the community — youths and adults alike. Medical, surgical and dental aid for those unable to pay for

## Friday Deadline To Pick Safety Awards; Latest Accident-Free Period Is Broken

The deadline for Y-12ers to select their individual awards for aiding the plant to establish its sixth safely operating period of 1,500,000 hours without a lost time accident has been set for Friday of this week, the Safety Department announced last week. The seven articles from which more than 4,000 eligible Y-12ers will make their

choice have been on display in every division in the plant and the great majority of the employees have designated their choice on selection cards provided for the purpose.

### Articles On Display

The articles will be on display this week at the Safety Department, Bldg. 9704-2 and all Y-12ers who for any reason have failed to see the awards and made a selection are urged to visit the department quarters this week before Friday. The awards consist of a picnic basket, one-gallon vacuum jug, fisherman's tackle box, electric lantern (minus batteries), three pair of men's Dynel hose, women's wallet and a Zippo cigarette lighter. An additional choice has been provided by the Safety Department in the form of two decks of playing cards, each bearing a safety message.

Meanwhile, the latest accident-free period is broken

Methodist Church took first  
prize in the architecture class at  
the Carbide Camera Club salon  
meeting contest last week. It  
was taken by Herman Dickerson,  
of the Y-12 ANP Division.

## Photographers Of Y-12 Win Most Club Honors

Amateur photographers from Y-12 swept most of the honors in the Carbide Camera Club annual salon contest last week at the Ridge Recreation Hall. Y-12ers took four firsts, seven seconds and six thirds in the event, which was marked by a record attendance and number of entries in the black and white prints and color slides in the contests. The meeting was held jointly with the Oak Ridge Camera Club with Frank Kertesz, a Y-12er, representing that club as president while Robert W. Schroeder, of Y-12, president of the Carbide Club, speaking for the Company group.

The Oak Ridge Art Center was represented at the salon meeting by Gil Frederickson, of K-25, president of that group. Justice Baird, of Oak Ridge National Laboratory, introduced Don Potts, of the University of Tennessee graduate school, who judged the prints; and Prof. Kermit Ewing, of the university's School of Fine Arts, judge of the slides. Both made interesting talks in summarizing the entries.

The print contest drew 50 entries and the slide 91, both figures being tops for the annual salon meeting.

The first, second and third place winners in each of the contests follow:

**PHOTOGRAPHIC PRINTS**  
Portraits—Robert Freestone, ORNL; R. W. Schroeder, Y-12; Rene Bolomey, Y-12.  
Architecture—Herman Dickerson, Y-12; Schroeder; S. A. Hluchan, Y-12.  
Scenery—Bruce Hall, K-25; Justice Baird, ORNL; Hluchan.  
Table Tops and Still Life—Freestone, Hluchan, Freestone.

**COLOR SLIDES**  
Flowers—Janet Cisar, Y-12; Hluchan, Cisar.  
Scenery—Dickerson, Hluchan, Virginia Coleman, Y-12.  
Children—George Begun, Y-12; Coleman; Freestone.  
Animals—Dick Lorenz, K-25; Dickerson; F. G. Seeley, Y-12.

### NEW ISOTOPE USE SEEN

The Detroit News reports that Michigan Highway Commissioner Charles M. Ziegler has disclosed plans to use radioactive isotopes in testing road building supplies.

## Disagreements Create Political Parties

*Editor's Note—This is the second of a series of articles about the government of the United States. It is to the advantage of every Y-12 voter to read and study these articles.*

### I. How do political parties come into existence?

Political parties arise out of the natural disagreements over the principles of government among the people in a democratic-type state. The group that can win over a large portion of the people to its ideas and principles become a major political party.

### II. Why do people belong to particular political parties?

For many reasons. There's the economic interests of the people involved. There are social factors which often influence people of different races or religions to join particular parties. Intertwined

with these are sectional factors, like those in the Democratic "Solid South." Also, there is tradition that holds many to the party that their fathers belong to.

### III. What about the two-party system in the U. S.?

The two-party system is based on an appeal to as wide a group as possible in an effort to elect men or women to carry out certain ideas in government. Without the major parties it would be a mad scramble and no one would get anywhere. Moreover, the two major parties each help to carry issues of public concern to the people and stimulate examination of them.

### IV. What part do minor parties play in our political set-up?

Minor parties have had a great influence on major parties in the sense that they have many times brought up new issues which the

major parties perhaps did not feel they could risk their political fortunes to introduce. There have been many minor parties in the United States history, among them the Greenback party, the Populists, the Progressives, and the Socialists.

### V. Is there any real difference in the two major political parties in the United States?

Historically, the two major parties have differed in their policies. Differences lie in the methods of maintaining our system of individual freedom, private property, and free enterprise in an ever-changing society. On specific issues the major parties frequently take opposing viewpoints.

### VI. What political party offers the best program for Americans?

Now—that's the \$64 question, to be determined by the votes of the majority of the electorate of the nation. That choice can be made fairly and justly only if every qualified voter goes to the polls

November 4 and casts his or her ballot for the candidate considered best for the job and representing the party which, in the mind of the voter, offers the best opportunity of carrying out a constructive program for the betterment of the nation as a whole and its citizens.

Capt. P. C. Dabbs, of the Guard Department, and his family spent some time in New York while on a two-week vacation . . . Donald I. Davis, a former Y-12 guard, and step-son of C. C. Chamberlain, of Maintenance Shops, arrived home in Knoxville on October 11, from Munich, Germany, where he has served with the infantry for several months. The date also was the birthday of his young son—whom he had never seen—which made the occasion double cause for celebration along with the fact that Don is soon to receive a discharge from the Army . . . The department extends sincere sympathy to Paul Surber and the family—on the recent death of his father-in-law, John L. Haws, at the Oak Ridge Hospital.

Wilma Simmons, of Technical Information, spent a recent week end with her folks in Centerville, Tenn. . . . Lennis Winchester went over to Memphis, Tenn., on a recent week end . . . Dorothy Conner and her husband attended the Mars Hill and Chowan football game over at Asheville, N. C., on a recent Saturday . . . Bobbie Jean Jesse visited her husband, Don, in Columbia, S. C., recently . . . Virginia Schneider has brought her mother, Mrs. Eduard Schneider, to Oak Ridge to make her home here . . . Peg Zerby attended a luncheon in Harrisburg, Pa., recently. The affair was in honor of the 10 distinguished daughters of Pennsylvania, of which her aunt, Mrs. Ruth Sprague Downs, was one.

Bob Devinish, long time Y-12er, has been added to the staff of the Safety Department, being transferred from the ANP Division. He will specialize in work with the engineering and research groups in the plant.

Y-12's maitre d' hotel, George J. McNamee, superintendent of the Cafeteria, proudly announced last Friday that his daughter, Rita, 13, has been appointed editor of the Jefferson Eagle, publication of the Jefferson Junior High School. The material gathered by the staff is published monthly in the Oak Ridger. The young editor won her post in an essay contest on citizenship.

Now hear this—any sourpusses in the house. Remember that the guy that laughs—lasts.

The Analytical Laboratory welcomes all the folks back to work who have been on the sick list which includes Mary Sladky, Ruby Osborne, T. H. Barton and Ruth Jones . . . Libby Hawzhurst and her husband, Dan, with Ray Kuhn and Bill Harper attended the Kentucky-LSU football game in Lexington, Ky., on October 11. They visited Pat Patterson, who recently left the department to attend the University of Kentucky. . . . Daisy Ward and her husband spent a recent week's vacation in Arkansas where they did a lot of fishing—Daisy was disappointed that she couldn't bring that two and a half pound crappie back with her—they made the return trip by way of St. Louis, Mo., to hear the Democratic presidential candidate speak . . . Rosemary Cabbage spent her week of vacation in Texas . . . Ludie Turpin has returned from a recent week of vacation in Georgia . . . Marie

Dinsmore and her husband, John, of Operations Division, spent last week vacationing at Fontana Village, N. C. . . . Folks in the department hope that Joan Wilson enjoys her work in the Assay Laboratory where she has been transferred . . . Also good luck to R. K. Bennett in his work with the ADP Process Improvement Department.

Martha Nelson, of the Laundry, is enjoying a vacation week of leisure at her home in Lake City. . . . C. A. McAlister is spending his week vacationing at home in Knoxville . . . Lela Lesley is likewise spending her vacation at home in Etowah.

W. D. Hill, of Stores, is back from a restful week's vacation spent around home at Duff, Tenn. . . . W. W. Cook has returned from a week of vacation . . . Good luck and best wishes goes to Barbara Marshall, who terminated last week to make preparations to enter a school in Memphis.

Congratulations are extended to Steve Pelizzari, of Uranium Processing, who is the proud papa of a baby daughter—Pattie Ellen—born October 10, at St. Mary's Hospital in Knoxville, weighing six pounds and six ounces.

L. A. Brown, of Property, is vacationing at his home in Marlow, Tenn., this week . . . Sue Gragg's brother, Howard W. Gragg, of the U. S. Navy, is home on a 30-day leave. He has been in the Philippine Islands for 18 months and will depart for duty in Japan when his leave is up.

Darlene Hoffman, of the Materials Chemistry Division, and her husband visited his folks in Quincy, Ill., last week and went on to Ames, Iowa, to attend the homecoming activities at Iowa State College over the week end. . . . L. G. Overholser and his family visited his wife's folks in Shelby, N. C., while on vacation last week.

H. A. Sinclair, of Electrical Maintenance, vacationed in Johnson City, Tenn., last week . . . Walter Wolf was also on last week's vacation list.

Buildings and Grounds extends sympathy to F. Queener on the death of his sister-in-law, Mrs. Georgia Tipton . . . W. P. Moore enjoyed his recent week's vacation in Birmingham, Ala., immensely—he made the famous Bankhead Hotel his headquarters.

Congratulations to—Ezra B. Carroll, Uranium Processing, who became father of a girl born October 14.

### PLANT COST IS HIGH

The Savannah River plant of the Atomic Energy Commission will cost \$1,250,000,000, R. K. Mason, construction chief, is reported by the Atlanta Constitution to have told a meeting in that city. Mason also quoted other comparative figures to indicate the immensity of the plant.

## Y-12ers Hope To End Chest Drive In Week

Continued from Page 1

it themselves is provided. Principles of good citizenship is instilled in boys and girls of the community. All of this work can only be carried out by voluntary subscriptions by a civic minded and generous public.

In dividing up the Community Chest dollar, an analysis of the cut shows that 50 cents goes to youth health development such as the school lunch program, the Anderson County Council on Cerebral Palsy, Oak Ridge Nursery School, Oak Ridge Dental Health Council, fund for crippled children, school bus fare and the Scarboro Day Care Center. The next biggest division of the dollar is 41½ cents for youth character development, beneficiaries being the Boy and Girl Scouts and the Camp Fire Girls. The remaining eight and one-half cents is diverted to the other Chest agencies and expenses.

As an added stimulant to the campaign youths of the city are being offered prizes for the best essay on "What The Community Chest Means To Me." Contest entrants are divided into two age groups—13-15 and 16-18 inclusive and the interest evinced by the youngsters in gathering facts and reasons for their literary efforts is reflected in proportionate growth of interest by their parents in what the Community Chest does for the community.

### Friday Essay Contest Deadline

Entries in the essay contest must be mailed to the Community Chest Essay Contest, Oak Ridge Community Chest, P. O. Box 388, Oak Ridge, not later than Friday night of this week, October 24. First and second prizes of \$15 and \$10 will be awarded in each age group.

Red Feather agencies benefitting by the Chest drive this year lay stress on groups aiding the youths of the community. The agencies participating in the Chest drive this year and the amounts allocated to each follows:

Oak Ridge Dental Health Council, \$5,520.  
Off-area hospitalization funds, \$500.  
Boy Scouts, \$10,400.  
Girl Scouts, \$10,512.  
Campfire Girls, \$2,400.  
Anderson County Crippled Children's Committee, \$2,500.  
Scarboro Day Care Center, \$2,681.  
School lunch program, \$7,500.  
School bus fare, \$700.  
Oak Ridge Nursery Schools, \$2,160.  
Anderson County Council on Cerebral Palsy, \$7,000.  
East Tennessee Heart Association, \$1,000.

National agencies receiving assistance from the local Community Chest campaign are the Mental Health Association \$166, American Association of Hearing \$48, and the Travelers Aid Association \$48. Chest administration this year will cost \$2,600, making the cost of raising funds for the various agencies only two cents for each dollar raised. The Community Chest Council of America also receives \$168.

The following Y-12 employees were patients in the Oak Ridge Hospital last week: John W. Anthony and Woodrow T. Rumph, Jr., Uranium Processing; Arnold H. Norman, Steam Plant; William J. Ross, Analytical Chemistry; Gladys J. Dodson, Health Physics; Victor J. Kinser, Maintenance Shops; and Laura B. Pruden, Bldg. 9212 Operations.

Help make the world a safer place in which to live.

# Y-12 BASKETBALL DRILLS OPEN NEXT MONDAY

## Y-12 SPORTS NEWS

**STALWARTS OF THE Y-12 VARSITY GOLF TEAM** THAT finished its second straight season in the Smoky Mountain Golf League without a defeat are shown above with the league trophy and individual awards for team members. From left are Arnold Tiller, Carl Door, Les Cater, Leo Caldwell, Bill Reynolds and Bill Bauman. Team members not in the picture were Jake Meece, Coy Harrell, Art Hines, Clyde Bowles and Jake Burchfield. The Y-12ers won seven and lost no matches during the past season.

## Fishing Rodeo Ticket Sale Date Extended To Friday Afternoon To Benefit Anglers

For the accomodation of Y-12 anglers and members of their families wishing to take part in the second Y-12 Fishing Rodeo, the sale of entry blanks for the event has been extended to 4:30 o'clock on Friday afternoon of this week.

## Hobslurps Humble Peglers In Shutout

The last team in any of the Y-12 plant bowling leagues to lose its perfect mark was the Peglers, of the E League, who absorbed a whitewash defeat at the hands of the Hobslurps last week. The victors narrowed the margin between first and second place to one point. In other loop matches the No Pins pinned a shutout on the Pin Wobblers, the Ezy Aces took three from the Cut Ups and the Stinkers walloped the 66s by the same margin.

Tiller, rolling for the 66s, set a pair of seasonal high records in scoring with his 254 handicap game and 647 handicap series, based on a 221 scratch game. Schierbaum, of the Ezy Aces, popped in a 566 scratch series. The Hobslurps had most of the team scoring honors with a 781 scratch game, 969 handicap game and 2250 scratch series. The Stinkers moved in with a 2817 handicap series.

Schierbaum had a big lead in the Big Five averages with 189. Tiller and Keller, of the Hobslurps, were tied at 162. Becker, Ezy Aces, had 161; and Wiegelt, 66s, and Haley, Cut Ups, were tied at 158.

### League standing follows:

Team	W	L
Peglers	16	4
Hobslurps	15	5
Ezy Aces	11	9
No Pins	10	10
Pin Wobblers	8	12
Stinkers	7	13
Cut Ups	5	11
66s	4	12

## Race Is Tightened In C Bowling Loop

The business of knocking off the top teams extended to the C League last Wednesday night when the Eutectics romped on the top place Rutsy Five for three points. The defeat left the losers in first place, but just one point ahead of the Hooks, who took three from the Guards and a roll off game from the Angstroms. The Hornets and UCJVs substantially boosted their marks with shut out victories over the Moles and Angstroms in the other engagements.

Arms, of the Hooks, had top

October 24. The rodeo officially opened at 6 a. m. Sunday, October 19, and will close at midnight on Sunday, November 2.

The tickets, selling for 50 cents each, may be purchased at the Recreation Office, North Portal; and also from Nelson Tibbatts, Bldg. 9739; A. F. Kendig, Bldg. 9201-3; and R. S. Phillippi, Bldg. 9212. Complete rules for the event are printed on each entry blank.

## Fog Heads Hold Top In Volleyball Loop

Showing strength that was not apparent in their opening engagement, the Uranium Control Junior Varsity volleyballers took a pair of games and three points from the Short Circuits in Plant Volleyball League play October 13. In another tilt of the night the Fog Heads maintained their undefeated record and league lead by taking two games from the Duds 15-6 and 15-5 with John Shugart and Bill Hamil outstanding for the victors. In the final game of the night Bldg. 9212 bowed before the superior play of the Engineers for three points.

The schedule for Monday night, October 27, at Elm Grove gymnasium will pit the Duds and Bldg. 9212 in the first game at 7 p. m., the Fog Heads and Short Circuits at 8 p. m. and the Engineers and UCJVs at 9 p. m.

League standing after two rounds of play follows:

Team	W	L
Fog Heads	6	0
Engineers	4	2
Duds	3	3
UCJV	3	3
Short Circuits	2	4
Bldg. 9212	0	6

scores with 186 scratch game, 220 handicap game and 502 scratch series but Knox, of the Eutectics, posted a 607 handicap series. The Hornets had the best team series scores with a 2139 scratch and 2335 handicap figure. The Guards' 754 scratch game was best of the night as was the 973 handicap game of the Eutectics.

### League standing follows:

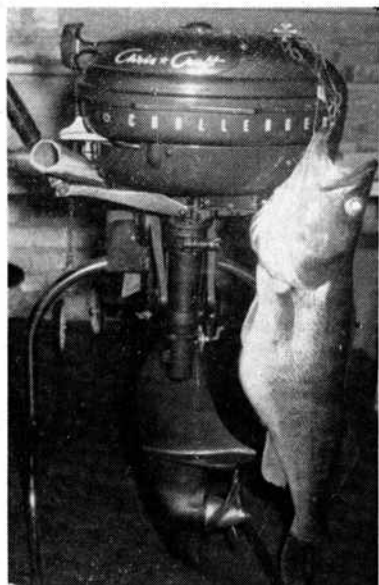

Team	W	L
Rusty Five	19	5
Hooks	18	6
Hornets	17	7
UCJV	16	8
Eutectics	12	12
Moles	5	19
Guards	5	19
Angstroms	4	20

## Experienced And Interested Managers Sought For Y-12 Varsity Basketeers

With basketball practice for Y-12 varsity teams starting next week, the Y-12 Recreation Office has issued an appeal for managers and coaches for both the men's and women's squads. Persons with experience and interest in handling either one of the varsity teams are urged to communicate with the Recreation Office, North Portal, telephone 7753. The final selection will be made on the basis of experience and interest shown in the job.

In the past Y-12 varsity teams have played an average of two games each week during the regular season, excluding tournament play. Out-of-town teams have been engaged on week ends, in many instances on a home and home basis that provide trips for the Y-12 cagers.

Although no league organization has yet been started, the Recreation Office is working on a schedule that will provide keen competition for the teams against the best opposition in this area.

**THIS WHOPPER OF A** walleyed pike once roamed the Little Tennessee River but now is a mounted trophy in the home of T. E. Carroll, of Maintenance Shops, at Lenoir City. The giant, of course, has been entered in the Y-12 Fishing Contest and is a goal at which to shoot for other Y-12 anglers. His size can be seen in comparison to the outboard motor to which he is attached.

## Three D Loop Teams Deadlocked For Top

Alley activities in the D League last week were sizzling and when all the fallen pins were picked up a triple tie existed for first place in the circuit. The Grocers made the biggest jump to join the deadlock, taking four points from the Vectors. The Isotopes knocked over the previously undisputed leaders, the Activators, for three and the Toppers stayed in contention through a split with the Old Men. The Peons took the Split Kids for three in the other match of the night.

The Toppers managed to bag most of the individual and team scoring titles. Hogg rolled a 218 scratch game, boosted to 256 with handicap, and McCoige had a 531 scratch series. Schafer, of the Grocers, had a 646 handicap series for tops. The Toppers led as a team with an 875 scratch series, boosted to 1054 with handicap, and a 2429 scratch series, but the Old Men snapped the sweep with a 2977 handicap series.

McCoige topped the Big Five averages with 169 and Pletz, of the Peons, followed with 166. Other high averages were Livingston, Toppers, 159; Ward, Grocers, 158; Caldwell, Isotopes, 152; and H. Thomas, Split Kids, 152.

### League standing follows:

Team	W	L
Activators	16	8
Toppers	16	8
Rusty Five	16	8
Grocers	16	8
Vectors	14	10
Peons	11	13
Isotopes	9	15
Old Men	8	16
Split Kids	6	18

Keep a safe working place.

## Gutter, Alley Cats Claw W Loop Wins

The feminine feline teams in the W League of plant women bowlers unsheathed their claws last week to hand the two top leaders in the circuit decisive defeats. The Gutter Cats handed the previously undefeated Controllers a whitewashing and the Alley Cats humbled the Kemps for two out of three games. The Mix Ups mauled the Cracker Jax for three games to drop the losers into a fifth place tie with the Strickettes, who calmed the Curvettes for two games.

Juanita Kirwan, of the Controllers, swept all individual honors with a 183, 219, 507 and 615 across the board, the 507 scratch series being tops for the season. Her teammates, despite their loss, had the best scratch game of 683 and series of 1988. Top handicap scores were posted by the Mix Ups with a 971 game and 2732 series.

Kirwan and Betty Whitehorn, also of Controllers, maintained their close race for top averages in the circuit, the former having 153 and the latter 151 through last week. Other high averages were Mavis Koons, Kemps, 139; Ann Weissinger, Gutter Cats, 137; and Doris Moore, Controllers, 131.

### League standing follows:

Team	W	L
Controllers	15	3
Kemps	13	5
Gutter Cats	11	7
Mix Ups	9	9
Cracker Jax	7	11
Strickettes	7	11
Curvettes	6	12
Alley Cats	4	14

## Rebels Extend Lead As B Rivals Beaten

The Rebels lengthened their lead in the B League last Thursday night with a three point victory over the Bldg. 9211 keggers while their nearest rivals were taking it on the chin. The Rippers ripped into the Bumpers for three points and the Cubs clawed the Tigers by the same margin. The biggest edge of the night came when the Wolves took the Swingsters for four points and in another match the All Stars and Has Beens split even. The Bums rounded out the night by stinging the Wasps for three.

Jack Spears led the Rebels to their triumph with some consistent scoring, posting a 215 scratch game, 595 scratch series and 642 handicap series. Green, of the Bumpers, had a 253 handicap game. The Rippers swept all team scoring honors with marks of 951, 1077, 2618 and 2996 across the board.

### League standing follows:

Team	W	L
Rebels	21	7
Bumpers	17	11
Tigers	16	12
Bums	16	12
All Stars	15	13
Rippers	15	13
Wasps	14	14
Has Beens	14	14
Wolves	14	14
Cubs	12	16
Bldg. 9211	10	18
Swingsters	4	24

## Varsity Candidates To Drill Monday And Wednesday

### Recreation Office Will Allocate Floors For Plant Loop Squads

The initial call for basketball practice sessions for both plant league and varsity team candidates on Y-12 has been issued by the Recreation Office with the first drills being set for next week. With a number of veterans and considerable new material on hand, hopes are high for the continuation of successful squads to represent the plant in outside competition and well balanced teams to create an interesting plant league.

All players—both veterans of past competition for the plant and newcomers with experience of any kind—are urged to communicate with the Y-12 Recreation Office, North Portal, telephone 7753, so that a line on the material to be expected may be obtained.

### Keen Competition Seen

Although several proven performers from last season are expected to turn out for the practice sessions, it is known that several newcomers of talent are on hand so competition for berths on the varsity squads should be keen. All positions are wide open and membership on the plant varsity teams will be earned by merit.

Practice sessions for both the women's and men's varsity squads are scheduled for Monday and Wednesday nights of next week. Candidates for both squads are requested to report at 6 o'clock Monday night, October 27, at the high school gymnasium for an initial workout. The sessions will be continued Wednesday night, October 29 at the Jefferson Junior High School gymnasium, the women meeting at 6 o'clock and the men at 7:30 o'clock.

Future practice times and places will be announced in The Bulletin.

### Interest High In Plant Play

Keen interest in proposed plant league play already has been expressed by several groups in the plant. Reservations for team practice meetings may be obtained from the Recreation Office. It is hoped that a league of at least six teams will be formed at an organization meeting to be called in the near future.

Y-12 has been assigned gymnasium space for plant league basketball at the Jefferson Junior High School on Monday and Friday nights from 6 o'clock to 10 o'clock and at Elm Grove school gymnasium on Thursday nights on the same schedule. The practice sessions for plant teams will be scheduled by the Recreation Office on a first-come, first-served basis, so team managers and captains are urged to get their requests for reservations in early.

## Varsity Bowlers Of Y-12 Win Another Whitewash

With all of the Y-12 varsity bowlers rolling consistently, the team posted a whitewash over the Bacon Ice Cream keggers on Monday night, October 13, to maintain its lead in the Oak Ridge City League. The Y-12 scores were 889, 906, 857—2652; to 810, 788, 853—2451 for the opposition.

Roy Roberts again led the victors on the score sheets with 169, 242, 170—581. Ernie Cobble was next with 194, 180, 182—556. Closely bunched behind were Frank Gragg 194, 134, 180—506; Len Hart 177, 169, 159—505; and Joe Pryson 157, 181, 166—504.

Team up against accidents.

## Fire Prevention Week Objectives Reached

Fire Prevention Week, observed in Y-12 October 6-11, saw extremely successful efforts made to eliminate every potential fire hazard in the plant area, steps taken to instruct every employee on ways and means of preventing and combatting fires and a determination to keep fire prevention action on a year around basis.

Reports reaching the office of Fire Chief W. O. Elam last week indicated that the Fire Prevention Week program reached all sections of the plant. During that week 150 meetings were held at which fire prevention was discussed by various groups of employees. Attendance at these meetings totaled 3,170 employees, the reports stated. A total of 260 building inspections were made during the week with the objective of improving house-keeping conditions.

Two old buildings that were eyesores and firetraps were razed during the week. One was Bldg. 9901, in the eastern section of the plant area, and the other a smaller shack formerly used for storage in the western area, Bldg. 9967.

Fire Prevention Week messages even went to the homes of all Y-12ers in the form of a booklet prepared by the Readers Digest, not only citing the hard statistics on fires and causes, but interesting articles on combatting fires.

## Keglerettes Of Y-12 Advance In City League

The Y-12 keglerettes picked up three more points in their drive toward the top of the Oak Ridge City League of women bowlers last Thursday night, the victims being the second place Shell Service Station lassies. The victory gave the Y-12ers an 18-10 mark and a tie for third place in the league with the EAT women. Rickers is on top and Shell and Bailey's are tied for second.

The Y-12 women got off running with a 718 to 565 win in the first game, but stumbled in the second to lose by 704 to 686. The winners rallied in the final game to win by 747 to 649 and had a total pinnage of 2155 to 1918 for Shell. The Y-12 individual scores were well bunched, Ruby O'Kain leading with 163, 157, 133-453; followed by Betty Whitehorn 136, 130, 170-436; Mary Ballard 149, 119, 156-424; Mavis Koons 138, 140, 145-423; and Juanita Kirwan 132, 140, 143-415.

## Attendance Record

MAJOR LEAGUE More Than 50 Employees Scheduled			
Dept.	Absent Percentage	10-12-52	10-5-52

Group absentee percentage was 3.1 per cent; .9 per cent higher than the preceding week.

The plant average for the week ending October 12, was 2.2 per cent; .1 per cent higher than the preceding week.

## Kell Players Will Open Concert Season Thursday

The first major concert of the 1952-1953 musical season in Oak Ridge will be presented at 8:15 o'clock tomorrow night, Thursday, October 23, when the Oak Ridge Civic Music Association will present the Reginald Kell Players at the civic auditorium. Artists in the troupe include Reginald Kell, clarinetist; Aurora Natola, cellist; Melvin Ritter, violinist; and Joel Rosen, piano.

The concert is one of a series to be sponsored by ORCMA during the season featuring professional recital artists, the Community Chorus and Oak Ridge Symphony Orchestra and several informal Sunday night musicales. Season membership tickets good for 16 concerts are on sale for \$7.50 for adults and student memberships at \$3.75.

## Four Maintenance Division Employees Cited For Promotions Earned By Excellent Work

L. K. Flynn C. J. Maddux

## Y-12 Group To Attend Ceramics Convention

Y-12 will be represented by at least four employees at the fourth anniversary meeting of the Tennessee Valley Section of the American Ceramic Society in Chattanooga Friday and Saturday, October 24 and 25. They include Louis M. Doney, secretary of the group; Al Taylor, George White and J. M. Warde, the latter head of the ceramics laboratory in Y-12 of the ORNL Metallurgy Division. Other members of the section in Y-12 include Stanley Fulkerson and Carl Curtis.

An interesting technical program will be held Friday afternoon at the Patten Hotel, meeting headquarters, to include election of officers for the coming year. Visiting women will be entertained with a special program at the same time and all attending the meeting will visit Rock City on Lookout Mountain Saturday.

The charter for the Tennessee Valley Section of the American Ceramic Society was granted in 1948. Since then the section has grown rapidly and more than 90 companies are represented by members from nine southeastern states.

## Y-12er To Talk At Meet Of Physics Seminar Body

Dr. Alex Zucker, of the Y-12 Electromagnetic Research Division, will speak at the weekly meeting of the Oak Ridge Physics Seminar at 3:15 o'clock Friday afternoon, October 24. The meeting will be held in the auditorium of the new research building at the Oak Ridge National Laboratory. Dr. Zucker's topic will be "Experiments With High-Energy Nitrogen Nuclei" and all Y-12ers interested in the subject are invited to attend the meeting.

## BOWLERS IN B LEAGUE SHOW CONSISTENCY

Bowlers in the B League last week were really "in the groove," according to score cards. Otis Rackley, of the Swingsters, collected one of those rare sequence scores—in reverse this time—by posting games of 144, 143 and 142. The Wolves kept their team scores bunched with scratch games of 767, 768 and 768, which with their handicap gave them 926, 927, 927.

In this 12th of a series of sketches and pictures of Y-12ers receiving promotions since July 1, 1952, for meritorious service, four Maintenance Division employees are listed.

**L. K. Flynn**—A veteran Y-12 employee who came to work here on October 3, 1943, Flynn was promoted from brick and tile mason to foreman in the Buildings and Grounds Department on October 1, 1952. He was married in 1925 and he and his wife, Mrs. Clara M. Flynn, live at 418 New York Ave. They have two children, Charles W. Flynn and Marcia J. Flynn.

**C. J. Maddux**—Maddux came to work in Y-12 on April 20, 1950, also in the Buildings and Grounds Department, and on September 1, 1952, he was promoted from carpenter to foreman. He was married on September 3, 1919, and he and his wife, Mrs. Mollie S. Maddux now live at 602 Pennsylvania Ave. They have three sons, C. J. Maddux, Jr., and Bill Maddux both being former Y-12ers and now in service; and Jim S. Maddux, now in Detroit, Mich.

**Archie P. Hooker**—He is another old-timer in Y-12, having come to work on August 8, 1944. A pipe-fitter group leader in the Field Maintenance Department, he was promoted to assistant foreman on July 1, 1951. He and his wife, Mrs. Marie F. Hooker, were married in 1937. They have no children. Hooker is one of the better-known golfers in the plant.

**George S. Ferrell**—Ferrell also came to work in Y-12 in 1944 and has been in the Maintenance Shops Department, in which he received his promotion to foreman on November 1, 1950. He was married in 1948 and his wife, Mrs. Clyde Ferrell, is a former Y-12 employee. They have two children, Nancy and James Stephen. Ferrell is one of the most enthusiastic anglers in the plant.

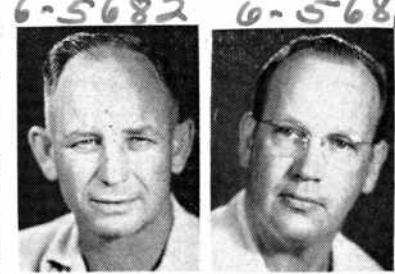

A. H. Johnson Ray Ellis

**A. H. Johnson and Ray Ellis**—In The Bulletin last week an inadvertent error in identifying pictures resulted in a mix-up. The cuts of A. H. Johnson and Ray Ellis were transposed, but are printed correctly above. Johnson was listed as having been promoted from machinist to assistant foreman in the Maintenance Shops Department on July 1, 1951, and since that date has again received an advancement to foreman on March 1, 1952. Ellis was promoted from operator assistant to assistant process foreman in the Uranium Processing Department on September 1, 1952.

## Civil Engineers Will Hear Talk By Georgia Tech Man

All Y-12 members of the Oak Ridge Subsection of the American Society of Civil Engineers are urged to attend a meeting of the group at 8 o'clock tomorrow night, October 23, in the West Lounge of the Ridge Recreation Hall. Prof. Robert Stiemke, director of the School of Civil Engineering at the Georgia School of Technology will speak. His topic will be "Engineering Education." He is a graduate of the University of Wisconsin and has been connected with the United States Corps of Engineers, North Carolina State College, Pennsylvania State College and Wayne University.

A. P. Hooker G. S. Ferrell

## Friday Is Deadline To Select Awards

Continued from Page 1  
free string of days in Y-12 that began on October 3 was broken on October 13 after a 10-day stretch. The accident that broke the period was suffered by an employee in the Analytical Chemistry Division who was burned and forced off the job for a few days. The previous period of operations without a lost time accident had reached 69 days on October 3 before a mishap to a process operator snapped the string.

### Report On Accident

In the latest accident, the Safety Department reported.

"A junior chemist in Department 4270 (Analytical Chemistry) was engaged in making a chemical analysis of a liquid metal on October 13, 1952, when a reaction occurred causing burns to the side of his face, neck, hands and forearm. The employee will be absent from work approximately one week."

## Rides Wanted And Offered

**Ride Wanted**—From Elm Grove Section of Oak Ridge, straight day. Nora Moss, plant telephone 7283, home telephone 5-5500, Oak Ridge.

**Want To Participate In Car Pool**—From Robertsville Road, Oak Ridge, straight day. Raymond G. Wiley, plant telephone 7425, home telephone 2-1333, Oak Ridge.

**Two Riders Wanted**—From Maryville via Knoxville and Inskip, straight day. W. W. Pugh, plant telephone 7436, home telephone 3580-J-3, Maryville.

**Ride Wanted**—From Cedar Lane, Fountain City, straight day. Christine Pope, plant telephone 7212, home telephone 6-1309, Knoxville.

**Ride Wanted**—From Knoxville-Clinton Highway near Knox Motel, straight day. Ruth Whittle, plant telephone 7472, home telephone 4-2472 Powell.

**JIM (JAMES FREEMAN) Bount**, of Maintenance Shops stationed in Bldg. 9212 is shown with his two prize coon hounds that took first honors at the recent Sweetwater Valley Fair. Both are registered black and tan canines. At left is Black Jack, a six-month old pup. At right is Black Susie, purchased in Mississippi. Bount is president of the Coon Hunters Club of Loudon County.

ANOTHER EYESORE AND FIRETRAP IN A REMOTE CORNER OF Y-12 IS RAZED AND removed during Fire Prevention Week as a means to eliminate all potential fire hazards in the plant area. It is Bldg. 9901, in the eastern section of Y-12.
